KAMUI

A man with short dark hair is standing in front of a large, multi-paned window. He is wearing a sage green double-breasted suit jacket over a white t-shirt, with a thin chain necklace. He is holding a brown leather tote bag in his right hand. The scene is lit with warm, golden light, and the shadows of a palm plant are cast across the window and the man's suit. The background outside the window shows a blurred view of a building and some foliage.

High-vis limes and fluoro pinks might have captured the headlines at the spring/summer 2019 shows, but it was the profusion of sage that proved the most wearable hue. This is the season to go green and leave grey and navy in the shade

Natural Wonder

"The colour has a soothing quality, as it brings an element of the natural world into urban life. It also pairs well with dark shades, as well as earthy hues"

Lighten Up

"Sage green is a great way to bring a crisp, light feel to sporty and military-inspired pieces during summer. You can give the shade a sharp, urban quality by pairing it with black"
